

## WELCOME TO A WORLD BEYOND THE PHACO PROCEDURE

### A DIFFERENT WAY TO LOOK AT YOUR PRACTICE

Designed for surgeons and administrators, the Cataract Analysis and Settings App (CASA) delivers easily accessible surgical performance metrics directly to your iPad device, **empowering you to elevate your surgical suite management using accurate, quantifiable insights** on your procedural outcomes.

Available on the iPad device.

Please read the CASA user's guide for a comprehensive instruction of use. Please read the Directions for Use and consult our specialists if you have any questions. CASA is not a medical device.

# CATARACT ANALYSIS AND SETTINGS APPLICATION (CASA)

## EMPOWER YOUR EXPERTISE.

*Turn Insight into Action*

Designed for both surgeons and administrators, the **Cataract Analysis and Settings Application (CASA)** gives you a different view of your practice.

You know that every movement and moment matters. Now, you can see what those movements and moments really mean. With the first\* mobile analytics tool for phaco, you can optimize your surgical suite with every procedure.

## CONNECT

**CASA** wirelessly connects with and imports surgeon, program and review case file data from the **WHITESTAR SIGNATURE™ PRO** System.

- Fast, user-friendly access
- Easily connect over Wi-Fi
- Connect to one or multiple systems
- Built-in security
- Available in the Apple App Store

\*Based on publicly available sources for the Stellaris® System, INFINITI® System and CENTURION® System in the US as of October, 2017.

## VISUALIZE

- Create personalized performance charts to visually represent information
- Review digestible insights on case volume and throughput, phaco energy use and specific programs
- Sort and compare data (case time, surgeon, program settings) on demand

## ANALYZE

- Easily visualize data to inform continuous improvement
- Analyze data from a single or multiple surgeons, systems and facilities
- Filter imported data by:
  - Date range
  - Facility
  - Surgeon
  - Programs
  - Cases
  - Case Notes

**CASA** provides the means of filtering imported data so you can **VISUALIZE** metrics, **ANALYZE** procedural efficiency and **OPTIMIZE** key performance areas within your surgical suite.

## OPTIMIZE

Easily access and interpret data to evaluate surgical performance metrics and support surgical suite optimization with clinical and operational insights.

- Promote continuous improvement from case to case
- Designed to optimize patient flow, productivity and program settings
- Tailor enhancements to key performance areas:
  - Case time
  - Turnover time
  - Ultrasound time per case
  - Ultrasound time per sub-mode

## QUICK START INSTRUCTIONS

### STEP 1

#### DOWNLOAD

Download the **CASA** app from iTunes or GooglePlay stores and install it on your smartphone or tablet.

### STEP 2

#### WIFI CONNECTION

Link your **WHITESTAR SIGNATURE™ PRO** System with the WiFi and follow the on-screen instructions to download the data.

### STEP 3

#### VISUALIZE & SHARE

Upload data from your smartphone or tablet to your computer where you can manipulate it into tables in Excel files and present it on Power Point presentations.
