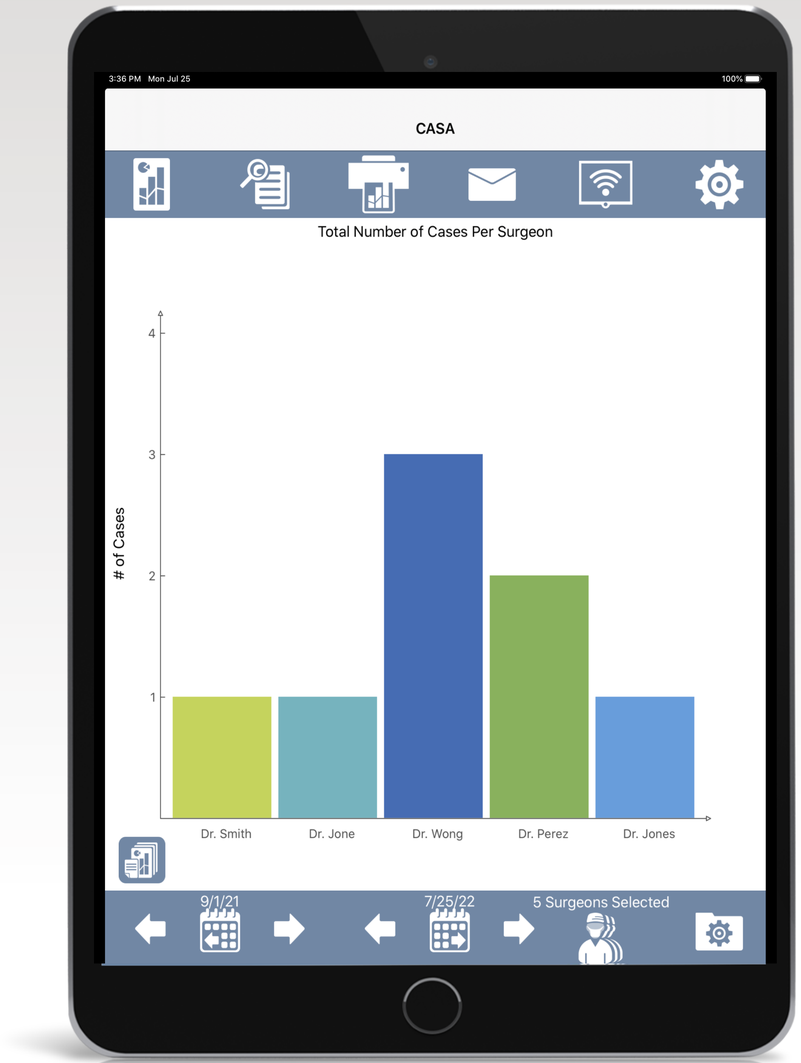
Your surgical day just got easier.

Johnson & Johnson VISION

Welcome to a world beyond the PHACO procedure

A DIFFERENT WAY TO LOOK AT YOUR PRACTICE

Designed for surgeons and administrators, the Cataract Analysis and Settings App (CASA) delivers easily accessible surgical performance metrics directly to your iPad or Android tablet, **empowering you to elevate your surgical suite management using accurate, quantifiable insights** on your procedural outcomes.



Cataract Analysis and Settings Application (CASA)

EMPOWER
YOUR EXPERTISE.

Turn Insight into Action

Designed for both surgeons and administrators, the **Cataract Analysis and Settings Application (CASA)** gives you a different view of your practice.

You know that every movement and moment matters. Now, you can see what those movements and moments really mean. With the first* mobile analytics tool for phaco, you can optimize your surgical suite with every procedure.

*Based on publicly available sources for the Stellaris® System, INFINITI® System and CENTURION® System in the US as of October, 2017.

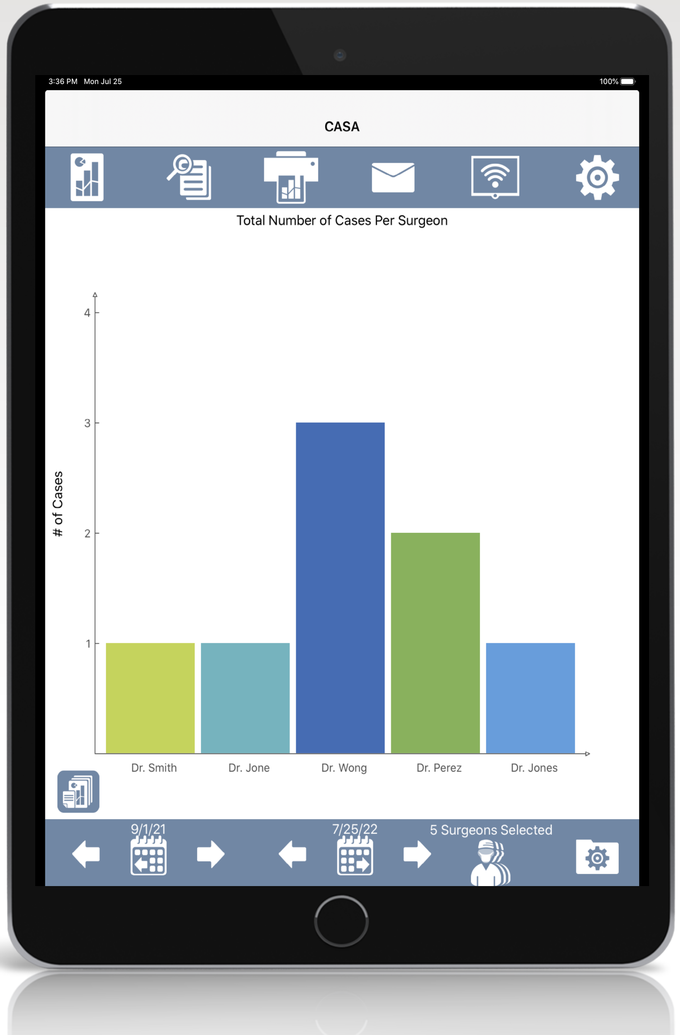
Johnson & Johnson VISION

Cataract Analysis and Settings Application (CASA)

CONNECT

CASA wirelessly connects with and imports surgeon, program and review case file data from the **VERITAS™** and **WHITESTAR SIGNATURE™ PRO** Systems.

- Fast, user-friendly access
- Easily connect over Wi-Fi
- Connect to one or multiple systems
- Built-in security
- Available in the Apple App Store and in Google Play Store



Cataract Analysis and Settings Application (CASA)

VISUALIZE

- Create personalized performance charts to visually represent information
- Review digestible insights on case volume and throughput, phaco energy use and specific programs
- Sort and compare data (case time, surgeon, program settings) on demand

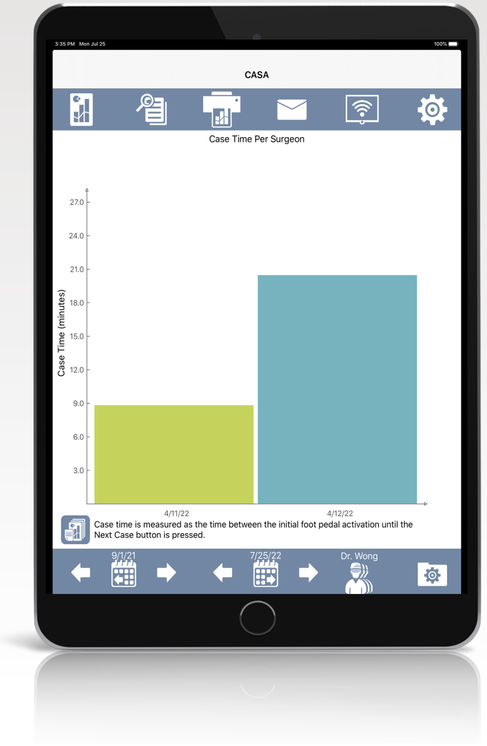
Cataract Analysis and Settings Application (CASA)

ANALYZE

- Easily visualize data to inform continuous improvement
- Analyze data from a single or multiple surgeons, systems and facilities
- Filter imported data by:

- Date range	- Programs
- Facility	- Cases
- Surgeon	- Case Notes

CASA provides the means of filtering imported data so you can **VISUALIZE** metrics, **ANALYZE** procedural efficiency and **OPTIMIZE** key performance areas within your surgical suite.



Johnson & Johnson VISION

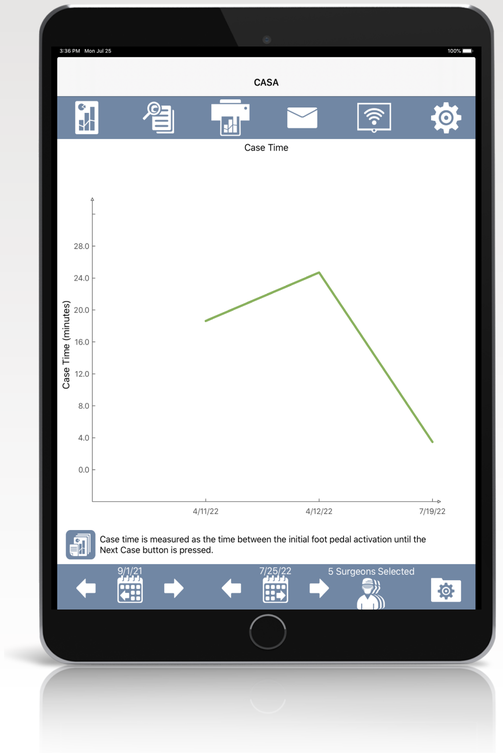
Cataract Analysis and Settings Application (CASA)

OPTIMIZE

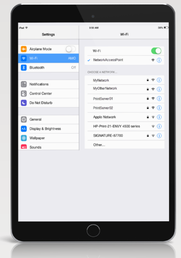
Easily access and interpret data to evaluate surgical performance metrics and support surgical suite optimization with clinical and operational insights.

- Promote continuous improvement from case to case
- Designed to optimize patient flow, productivity and program settings
- Tailor enhancements to key performance areas:

  - Case time
  - Turnover time
  - Ultrasound time per case
  - Ultrasound time per sub-mode



Quick Start Instructions



STEP 1
DOWNLOAD

Download the CASA app from Apple App or Google Play stores and install it on your tablet.

STEP 2
WIFI CONNECTION

Link your tablet's Wi-Fi to your **VERITAS™** or **WHITESTAR SIGNATURE™ PRO** system and then follow the on-screen instructions to download the data.

STEP 3
VISUALIZE & SHARE

Upload data from your tablet to your computer where you can manipulate it into tables in Microsoft Excel files and present it on Microsoft PowerPoint presentations.
